To whom it may concern

It gives me great pleasure to submit a reference in support of Source One Consulting.

When tasked with the huge project of moving to bigger premises in the Autumn of 2007 it was evident that choosing the right interiors company was going to play a big part in making the move a success.

Source One were chosen early on because of their professional approach and quality of their past work.

Lisa Roberts handled the contract and from the very beginning her advice, commitment and flexibility was second to none. Knowing this element of the project was in safe hands meant time could be spent in other areas.

The service provided was outstanding. Floor plans were designed with space for our future expansion needs and furniture was sourced for all areas of the office including reception, meeting rooms and break out areas. Advice was sought in matters that were probably out of the remit of the usual interiors company but Lisa was always helpful and knowledgeable.

In March 2008 the installation was handled exceptionally and we have provided staff with a bright, airy and spacious place of work.

Source One's services have been used again recently to provide furniture for a small surveying office in Southampton and as expected the same level of professionalism was received.

I would highly recommend Source One to anyone looking for a professional interiors company.

Kindest regards

Debbie Austin
