OFFICE REFURBISHMENT & FIT OUT

Case study: Challs International, Hadleigh

Scope: Design to installation of new building

Challs International offices in Hadleigh was devastated by fire in 2014. Source One were appointed to work on the high profile project to rebuild the offices with a brief to create an 'office for the future'.

We were delighted to be involved from early on in the project, even before the first bricks were laid, with the brief to create an exciting and innovative interior.

We worked with Challs on everything from 3D office plans and bespoke flooring to specific furniture, fabrics & finishes to create the look & feel that we have today.

See more pictures of this project and what our clients said on our website showcase pages.
